OBJECTIVE

To secure a position at [A2SV](#) as a dedicated and enthusiastic team member, utilizing my software development skills and innate problem-solving abilities to drive the company's success. I'm eager to enhance my technical expertise and collaborate with talented professionals in a fast-paced and innovative environment. By actively contributing to A2sv's projects and initiatives, I aim to play a vital role for growth and advancement.

EDUCATION

Bachelor Of Software Engineering

Addis Ababa Science And Technology University, Addis Ababa, Ethiopia(AASTU)
since - 2020

EXPERIANCE

A2SV Generative AI Hackathon Semi-Finalist (2023)

- Participated in the A2SV Generative AI Hackathon for Africa as a member of Team [Miiltoo](#).
- Developed a generative AI solution in collaboration with teammates.
- Designed and implemented user interface as frontend developer and designer.
- Currently competing to secure a spot in the top 8 teams, showcasing my ability to deliver innovative solutions under pressure.

Team Project, AASTU, Ethiopia (Since 2020)

- Collaborated with a team of developers to build a full-stack website project.
- Contributed to the development of the website using HTML, CSS, JavaScript, and PHP as the backend.
- Contributed to the development of the desktop application using Swing, JavaFX, and Java.
- Took on the UI design part of the project and created a visually appealing website using Figma.
